

Office Space Planning

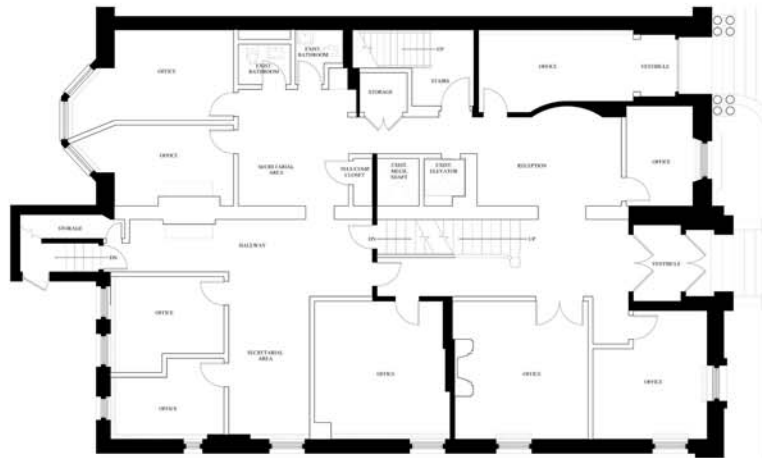

Boston Massachusetts

Project Highlights

Our firm worked to document this historic house for an as-built record.

Documentation work was completed in conjunction with space planning.

First Floor Plan

Your Project, Our Role...

The Preservation Collaborative worked to document a historic Back Bay townhouse being used as offices on the first and second floors.

Our firm provided as-built documentation and space plans for King Design Associates, who were working for the building owners. This record was used to determine the feasibility of using the office space as it existed, or to rehabilitate the space for a new use.

The Preservation Collaborative specializes in the documentation of historic properties. With more than a decade of experience in this area, we are knowledgeable about getting the task at hand complete.

We pride ourselves in working with small and large clients who have buildings of all styles, shapes and ages. We can help, so contact us to get started!
