

Boston Space Planning

Boston, Massachusetts

Project Highlights

Space plans helped owners determine feasibility of locating to the building.

Building is located behind Old South Meetinghouse.

Floor Plan

Your Project, Our Role...

The Preservation Collaborative worked with King Design Associates to develop space plans for multiple spaces in a historic building located behind Old South Meetinghouse.

Space plans assist owners in planning if the design is right for their operation.

The final plans were delivered and spaces constructed and occupied.

The Preservation Collaborative can help clients determine the feasibility of using a space. No matter if the building is small or large, we can lay out space plans using client programs.
