

Historic New England

Regional New England

Project Highlights

Created construction documents for several preservation projects ranging from roof repairs to re-creations.

Documented as-built conditions for newest museum property acquisition.

Provided valuable data for preservation team, including grant support.

Stephen Phillips House, right, Roseland Cottage, below, and Lyman Estate, below right. We created as-built and contract drawings for these properties.

Your Project, Our Role...

Our firm worked with Historic New England, the regional leader in historic preservation, to perform several projects on their historic properties.

Work was inclusive of many of the 36 properties featured around England. Jobs ranged from documenting existing conditions to the creation of construction documents.

The Preservation Collaborative's diverse background and multitude of trades under one roof allow quick and timely results to problems museums may face.

We pride ourselves in working with small and large museums. Often having multiple resources to manage, our firm assists in ensuring sustainability, allowing historic properties remain at the forefront of your collection for decades to come.
