

Retail Store

Malden, Massachusetts

Project Highlights

New facade improvement gave the building a unified look and strengthened the business community.

Project renderings assisted owner and neighbors in conceptualizing the new structure.

Rendering (below) and a portion of the completed facade.

Unfolded Front Elevation Rendering

Your Project, Our Role...

Designed under B. Goba & Associates, P.C., this project involved the redesign of an existing commercial block for a more unified facade. Work included new paint colors, signage and lighting.

The Preservation Collaborative can provide clients with project support. From renderings to design assistance, we are ready to meet any challenge at hand. Let us help ease the burden of work. Contact us today!

Our firm developed presentation renderings for the owner and contract documents for construction of this small project.
