

# Highlands Preservation Plan

*Melrose Massachusetts*

## Project Highlights

Assessment of existing Melrose Highlands' historic inventory.

Photographic documentation of existing resources.

Comparison of preservation options by ordinance.

Prioritize short, medium and long term goals for the commission (over 10 years).

Sample of historic homes surveyed photographically in the preservation report. Homes dated to pre Civil War through to the World Wars.

## *Your Project, Our Role...*

Our firm worked with the Melrose Historical Commission to create a plan to address the lack of information and identification on the Melrose Highlands section of town.

Work included a history of the neighborhood, gathering of historic maps, walkthrough of the existing resources, identification of preservation options, and recommendations for short, medium and long term goals over 10 years.

The Preservation Collaborative works with local preservation leaders to help address and fulfill mounting needs and requirements.

We are skilled in providing regional overviews (neighborhood assessments) and have the technology to provide you with long term goals to ensure your organization is on the right track to success!
