

# Museum of Old York

*York, Maine*

## Project Highlights

Old York's properties represent regionally important structures.

Documented four historic properties dating from the Civil War to the World Wars.

Documentation was utilized as grant support material.

This documentation completed documentation work for Museum. Other properties were documented under HABS program.

George Marshall Store as seen in historic photograph. This and the John Hancock Wharf, pictured below, were two of four historic buildings documented.

## *Your Project, Our Role...*

Our firm provided the Museum of Old York with documentation for four of twelve historic buildings. This as-built documentation completes the remaining buildings not covered by the HABS program.

Two of these buildings, the George Marshall Store and John Hancock Wharf, are of regional importance, demonstrating York's history as a once bustling port of entry.

The Preservation Collaborative's diverse background and multitude of trades under one roof allow quick and timely results to problems museums may face.

We pride ourselves in working with small and large museums. Often having multiple resources to manage, our firm assists in ensuring sustainability, allowing historic properties remain at the forefront of your collection for decades to come.
