

Apartment Renovation

South Boston, Massachusetts

Project Highlights

Residential unit was designed to incorporate modern amenities.

Unit rented in less than a month.

Existing building with new front landscaping (right) and detail photos of the apartment (below).

Your Project, Our Role...

A residential building owner contacted us about renovating a commercial space into a 2 bedroom apartment.

Work consisted of documenting existing conditions, and providing contract documents for the build out.

The final design created a trendy apartment space which rented in less than a month.

The Preservation Collaborative provides residential clients with alternative design choices to meet and accept modern amenities. Our creative team will balance your needs with visual and physical comfort.

Let the Preservation Collaborative design your dream home or addition today!
